You are entitled to receive this “Good Faith Estimate” of what the charges could be for naturopathic medical services provided to you. While it is not possible for a naturopathic doctor to know, in advance, how many visits or what lab tests or supplements may be necessary or appropriate for a given person (naturopathic doctors provide individualized care), this form provides an estimate of the cost of services that may be provided. Your total cost of services will depend upon your individual circumstances, and the type and amount of services that are provided to you.

This estimate only applies to your new patient visit. Your naturopathic doctor will provide you with an updated Good Faith Estimate after your first visit when your doctor has more information about your case.

Service/Item	Diagnosis Code	Quantity	Expected Cost
Initial New Patient Visit	Z03.89 [to be determined after initial visit]	1 60-minute initial new patient visit	\$350
Labs are generally ordered at the new patient visit depending on patient need			Please see the Practice Policies for additional information about lab costs – labs are an additional cost **Review of labs requires a paid follow-up visit.

Please see the Important Patient Information and Practice Policies for additional information.

This Good Faith Estimate is not intended to serve as a recommendation for treatment or a prediction that you may need to attend a specified number of naturopathic visits. The number of visits that are appropriate in your case, and the estimated cost for those services, depends on your needs and what you agree to in consultation with your provider. You may discontinue treatment at any time.

Disclaimer:

This Good Faith Estimate shows the costs of items and services that are reasonably expected for your health care needs for an item or service. The estimate is based on information known at the time the estimate was created. The Good Faith Estimate does not include any unknown or unexpected costs that may arise during treatment. You could be charged more if complications or special circumstances occur. If this happens, federal law allows you to dispute (appeal) the bill.

There may be additional items or services that may be recommended as part of your care that must be scheduled or requested separately and are not reflected in this good faith estimate. This estimate is not a contract and does not obligate you to obtain any services from the provider(s) listed, nor does it include any services rendered to you that are not identified here.

If you are billed for more than this Good Faith Estimate, you have the right to dispute the bill. You may contact the health care provider or facility listed to let them know the billed charges are higher than the Good Faith Estimate. You can ask them to update the bill to match the Good Faith Estimate, ask to negotiate the bill, or ask if there is financial assistance available.

You may also start a dispute resolution process with the U.S. Department of Health and Human Services (HHS) if the actual amount charged to you exceeds \$400 of the Good Faith Estimate. If you choose to use the dispute resolution process, you must start the dispute process within 120 calendar days (about 4 months) of the date on the original bill. There is a \$25 fee to use the dispute process. If the agency reviewing your dispute agrees with you, you will have to pay the price on this Good Faith Estimate. If the agency disagrees with you and agrees with the health care provider or facility, you will have to pay the higher amount.

To learn more and get a form to start the process, go to www.cms.gov/nosurprises or call 1-800-985-3059. **For questions or more information** about your right to a Good Faith Estimate or the dispute process, www.cms.gov/nosurprises or call 1-800-985-3059. Informed Consent for Naturopathic Medicine

This Informed Consent for Naturopathic Medicine provides important information regarding the services being provided by Newport Integrative Health and your Newport Integrative Health naturopathic doctor. The purpose of this form is to provide you with written information regarding naturopathic medicine and the potential risks, benefits, and alternatives so that you may make an informed decision about whether to proceed with naturopathic medicine evaluation and treatment. Please ask any questions you have regarding this document and the naturopathic medicine services before signing this form.

By signing below, I acknowledge and agree to the following:

I understand that the Naturopathic Doctors of Newport Integrative Health are licensed and regulated by the California Board of Naturopathic Medicine.

I understand that all recommendations and treatments will be discussed with me before treatment begins and that I am encouraged to ask questions including: my suspected diagnosis(es) or condition(s); the nature, purpose, goals and potential benefits of the proposed course of care and treatment; the inherent or potential risks, complications or side effects of the proposed treatment; reasonable available alternatives to the proposed treatment; and potential consequences if treatment or advice is not followed and/or nothing is done.

I hereby request and authorize my selected naturopathic doctor at Newport Integrative Health to perform, order or recommend, as applicable, naturopathic medical care, evaluation, treatment, procedures and/or other naturopathic medicine services (the “**Naturopathic Medicine Services**”), within the scope of a California licensed naturopathic doctor, which may include, but are not limited to:

I understand naturopathic doctors are not psychologists or psychiatrists and any counseling is for support of improved lifestyle strategies only. I also understand the U.S. Food and Drug Administration has not approved nutritional, herbal, and homeopathic substances to treat specific diseases.

However, they may lack therapeutic effect or could cause allergic reactions or unpleasant side effects which could possibly range from mild to severe. Additionally, the interactions between herbs, and between herbs and medications are also not always thoroughly understood. While unlikely, and while the Newport Integrative Health naturopathic doctors are trained in herbal medicine, it is possible to have an adverse reaction or experience a reduction or increase in the effect of other medications when taking herbs. These can have serious consequences for some medications, such as for the control of high blood pressure or blood sugar. Homeopathic medicines can potentially cause aggravation or worsening of current or pre-existing symptoms.

I am aware that unforeseeable complications could occur, and that while the Newport Integrative Health doctors will make every reasonable effort to screen for contraindications to care, I do not expect them to be able to anticipate and explain all possible risks and complications.

Following Doctor Instructions: I understand that for my safety it is extremely important that I follow instructions I receive with respect to dosing and administration of herbs, homeopathic medicines, nutritional supplements, hormones, peptides, and other prescriptions. **I understand that taking more than prescribed/recommended or self-treating with additional supplements or medications can be dangerous.**

I understand that it is vital that I truthfully and accurately disclose all health information requested by my Newport Integrative Health doctor including, but not limited to, all medications, allergies, and medical conditions, as well as keep Newport Integrative Health updated as to any changes, including any new treatments or procedures I am undergoing. I understand that failure to do so may negatively affect the outcome and safety of any treatments I receive, and I understand that there shall be no liability on the part of Newport Integrative Health or my Newport Integrative Health doctor should I fail to do so.

Informed Consent for Telemedicine

Because the Newport Integrative Health naturopathic doctors conduct consultations via telemedicine, this form is to obtain your informed consent for telemedicine consultations with your Newport Integrative Health naturopathic doctor. This Informed Consent for Telemedicine is intended as an addition to the informed consent for naturopathic medicine and does not change the terms of that informed consent.

The Newport Integrative Health naturopathic doctors are licensed naturopathic doctors in the State of California, which gives them the ability to practice naturopathic medicine and diagnose and treat patients who are located in California. Therefore, you must be present in California during your telemedicine consultations with your Newport Integrative Health naturopathic doctor.

Telemedicine involves the use of electronic communications to enable the doctor at a different location from the patient to share medical information with that patient. The information may be used for diagnosis, treatment, follow-up and/or education. During a telemedicine consultation, your Newport Integrative Health naturopathic doctor will be providing care to you via live two-way audiovisual electronic communications or telephone instead of in-person.

The interactive video connection and electronic communication system used by Newport Integrative Health for telemedicine consultations is HIPAA-compliant and designed to protect the confidentiality of patient data.

Expected benefits of a telemedicine consultation include:

- The Newport Integrative Health naturopathic doctors can provide care to patients who are located throughout California and patients may not need to travel to the Newport Integrative Health office for all visits.
- More efficient medical evaluation and management.

Potential risks associated with the use of telemedicine include, but not limited to:

- There is the potential that conditions that could be diagnosed with an in-person visit may go undetected in a remote encounter especially because a full physical exam cannot be performed.
- The video connection may not work, or it may stop working during the consultation, or there may be other technical difficulties or failures during the consultation.
- The video picture or information transmitted may not be clear enough to be useful for the consultation or to allow for appropriate care. This may cause a delay in medical evaluation and treatment.
- Security protocols may fail, causing a breach of privacy of personal medical information and/or unauthorized access to the video connection during the consultation.
- Certain treatments that may be provided in person cannot be provided via telemedicine.

If the video connection is interrupted, please call the office.

By signing this Informed Consent to Telemedicine, you acknowledge and confirm that you understand and agree to the following with respect to telemedicine services:

1. I understand that telemedicine consultations do not replace in-person visits in all circumstances. I understand that I must either see my Newport Integrative Health naturopathic doctor or another primary care provider for in-person physical examinations and other diagnostic and screening procedures.
2. I understand it is up to my Newport Integrative Health naturopathic doctor to determine whether my specific clinical needs are appropriate for a telemedicine consultation. I understand that I may be required to see a licensed provider for an in-person physical examination if in my Newport Integrative Health naturopathic doctor’s professional judgment I need to receive a more thorough physical examination or that the videoconferencing connections are not adequate for the situation or to provide appropriate care for any reason.
3. I understand that the federal and state laws that protect the privacy and confidentiality of health information also apply to telemedicine and all medical reports resulting from the telemedicine consultation are part of my medical record. I understand that there will be no recording of any of the online session and that all information disclosed within telemedicine sessions and in the written records pertaining to those sessions are subject to the same HIPAA privacy protections as in-person visits.
4. I understand that I am responsible for information security on my device, including but not limited to, computer, tablet, or phone. I also understand that I am responsible for using this technology in a private location so that others cannot hear my conversation.
5. I understand there is a risk of technical failures during the telemedicine encounter including difficulties with internet connectivity, hardware, software, equipment, and/or services supplied by a third party and that these technical failures are beyond the control of Newport Integrative Health. I understand Newport Integrative Health cannot make any guarantee that such services will work as expected, and I agree to hold Newport Integrative Health harmless for delays in evaluation or for information lost due to such technical failures.
6. I understand that alternatives to telemedicine consultation, such as in-person services are available to me, and in choosing to participate in a telemedicine consultation that some naturopathic medical services may not be available.

By signing this Informed Consent for Telemedicine, I confirm and agree that: I am/will be in the state of California at the time of my Telemedicine consult. That I have read this informed consent form, or someone has read it to me. I understand the contents of this form including the risks and benefits of the telemedicine consultation and my questions have been answered. I hereby give my informed consent to participate in telemedicine consultations with my Newport Integrative Health naturopathic doctor, and I intend this informed consent to cover the entire course of my care with Newport Integrative Health.
